

Accurate weighing
in continuously
changing marine
conditions.

M2 Marine Scales

- Weigh higher-capacity applications; up to 400kg.
- Designed for fishing, offshore, and research vessels.
- Maintains accurate measurements while a vessel rolls and pitches.
- Easy to clean for maximum hygiene.
- Available with Bluetooth, WiFi, and Ethernet connections.
- Durable 316 Stainless Steel design.

Ideal For:

- Commercial fishing boats.
- Offshore operations.
- Research ships.

What makes it unique?

- Supports multiple loadcell connections
- Flexible mounting: tabletop, wall, column, or panel.
- Built-in stability filters to compensate for vessel motion.
- Optional battery and data storage solutions.
- Can connect up to three platforms.
- Checkweighing: under limit, target, and overlimit.

M3 Marine Balance

- Highly durable 316 stainless-steel construction.
- Weighing smaller capacities at sea.
- Accurate and stable measurements whilst conditions change.
- AC or DC options.
- Range of intervals to choose from.
- Weigh from 0.1g to 15kg.
- Easy to clean for maximum hygiene.

Ideal For:

- Research vessels.
- Offshore laboratories.
- Checkweighing; under limit, target, and overlimit.

What makes it unique?

- Maintains stability and repeatability under vessel movements.
- Hygienic design for easy cleaning.
- Optional connectivity for data logging and integration with lab systems.
